PROJECTS

IronLog — Offline Gym Tracker · Kotlin · Jetpack Compose · MVVM · Room DB · Hilt · Android | [GitHub](#)

- Offline Android gym tracker built with Kotlin, Jetpack Compose, MVVM, Room, and Hilt.
- Released multiple versions featuring workout logging and progress tracking.

Smart Attendance System (Turnout Tracker) · Angular 21 · TypeScript · RxJS · Angular Signals · Chart.js · JWT | [GitHub](#)

- Attendance management platform with role-based dashboards and JWT authentication.
- Built using Angular, TypeScript, RxJS, and ASP.NET Core APIs.

Pothole Detection & Reporting System · Node.js · Express · Firebase · JavaScript · REST API | [GitHub](#)

- Civic-tech platform for reporting and managing potholes with image uploads and analytics.
- Implemented REST APIs, Firebase integration, and admin dashboards.

P2P File Sharing App · WebRTC · Node.js · Socket.IO · Express · Render | [GitHub](#)

- Browser-based file sharing using WebRTC and Socket.IO.
- Supports large file transfers through direct peer-to-peer communication.

Resume Analyzer — ATS Scorer · Python · OCR · NLP · NLTK · Gradio · pytesseract | [GitHub](#)

- ATS-style resume scoring tool using OCR, NLP, and Gradio.
- Generates skill analysis and role-specific recommendations.

Nagpur Crime Pattern Analysis · Python · Pandas · Matplotlib · Seaborn · EDA | [GitHub](#)

- Full EDA pipeline on real Nagpur crime data — cleaning, datetime feature extraction, multi-dimensional analysis (type, zone, area, time-of-day, case status), and bar/line chart visualizations surfacing top crime-prone areas and monthly trends. Presented at the DataVerse workshop at ACET (Jul 2025).
